Thereafter, the marks of Written Examination and Interview Test shall be combined and final Merit List of successful candidates shall be drawn. There shall be no practical examination.

GENERAL INSTRUCTIONS TO THE CANDIDATES

(A) Written Examination (Objective Type) :

- (i) Candidates must write the papers in their own hand. In no circumstances, will they be allowed the help of a scribe to write the answers for them.
- (ii) The Commission have discretion to fix qualifying marks for the Examination.

(B) Interview/ Personality Test :

The candidates will be interviewed by a Board who will have before them a record of his/ her career. The candidates will be asked question on matters of general interest with specific stress on matters relating to Medical Science field. The objective of the Interview is to assess the personal suitability of the candidates for a career in Medical Field by a Board of competent and unbiased observers. The test is intended to judge the mental calibre of a candidate. In broad terms, this is really an assessment of not only his/ her intellectual qualities but also social traits, mental alertness, critical powers of assimilation, clear and logical exposition, balance of judgment, variety and depth of interest, ability of social cohesion and leadership, intellectual and moral integrity.

1. The technique of the interview is not that of a strict cross-examination but of a natural thought directed and purposive conversation which is intended to reveal the mental qualities of the candidates.
2. The interview test is not intended to be a test either of the specialised or general knowledge of the candidates which has been already tested through their written paper. Candidates are expected to have taken an intelligent interest not only in their special-subjects of academic study but also in the events which are happening around the world in Medical Science along with new discoveries.
