

**ANNEXURE-IX TO NOTIFICATION NO. 7/2/2022-MPSC (DR) DATED 20-03-2026**

1. Which organization certifies genuine handloom products with a special mark to prevent counterfeiting and protect the interests of weavers?
  - (A) National Handloom Development Corporation (NHDC)
  - (B) Handloom Export Promotion Council (HEPC)
  - (C) Office of the Development Commissioner for Handlooms
  - (D) India Handloom Brand
  
2. Cluster development encourages:
  - (A) Isolation
  - (B) Collaboration among enterprises
  - (C) High competition only
  - (D) Monopoly
  
3. Spreadsheet formula error #DIV/0! indicates:
  - (A) Virus
  - (B) Division by zero
  - (C) Data lost
  - (D) Hardware issue
  
4. Assertion (A): Regular monitoring improves accountability.  
Reason (R): It ensures deviations are detected early.
  - (A) Both true and R explains A
  - (B) Both true not explanation
  - (C) A true R false
  - (D) Both false
  
5. MSME units are classified based on:
  - (A) Number of employees only
  - (B) Investment and turnover
  - (C) Yarn count
  - (D) Loom speed
  
6. Digital signature ensures:
  - (A) Virus
  - (B) Authenticity
  - (C) Compilation
  - (D) Internet speed
  
7. In cost analysis, fixed cost includes:
  - (A) Raw material
  - (B) Rent
  - (C) Labour per unit
  - (D) Transport per unit
  
8. LAN differs from WAN because LAN:
  - (A) Covers global area
  - (B) Covers small area
  - (C) Is wireless only
  - (D) No internet

**ANNEXURE-IX TO NOTIFICATION NO. 7/2/2022-MPSC (DR) DATED 20-03-2026**

9. Process monitoring focuses on:
- (A) End result only
  - (B) Activities during implementation
  - (C) Final profit
  - (D) Market survey
10. A compiler in computer science translates:
- (A) Machine code to high-level code
  - (B) High-level language into machine code
  - (C) Data into Excel
  - (D) Emails
11. Primary responsibility of Inspector (Handloom – Non Technical) is:
- (A) Technical spinning supervision
  - (B) Yarn analysis
  - (C) Polymer testing
  - (D) Scheme implementation, monitoring & administrative coordination
12. Digital literacy in handloom sector improves:
- (A) Productivity & marketing reach
  - (B) Yarn count
  - (C) Loom structure
  - (D) Twist
13. Under the "India Handloom Brand" (IHB), what does the "Zero Effect" component signify?
- (A) Zero defects in the cloth
  - (B) Zero adverse impact on the environment (Eco-friendly dyes)
  - (C) Zero cost for the weaver
  - (D) Zero electricity used
14. Evaluation differs from monitoring because evaluation:
- (A) Continuous process
  - (B) Periodic assessment of outcomes
  - (C) Daily reporting
  - (D) Data entry
15. The "Audit Fee" for a Handloom Cooperative Society is usually determined by:
- (A) The Weaver members
  - (B) The Textile Ministry
  - (C) The Registrar of Cooperative Societies
  - (D) The Income Tax Department

**ANNEXURE-IX TO NOTIFICATION NO. 7/2/2022-MPSC (DR) DATED 20-03-2026**

16. Outcome indicator measures:

- (A) Activity done (B) Immediate result  
(C) Medium-term effect (D) Output only

17. Cooperative society in handloom sector mainly aims at:

- (A) Individual profit (B) Collective welfare  
(C) Foreign trade control (D) Private branding

18. Router connects:

- (A) Only printers (B) Multiple networks  
(C) Only local computers (D) Database only

19. If total cost = ₹5,00,000 and revenue = ₹5,00,000, profit is:

- (A) ₹50,000 (B) ₹0  
(C) ₹1,00,000 (D) Loss

20. Monitoring indicator must be:

- (A) Vague (B) Measurable  
(C) Complex (D) Long

21. Industrial registration ensures:

- (A) Policy compliance (B) Higher twist  
(C) Dyeing (D) Weaving speed

22. Data encryption ensures:

- (A) Speed (B) Monitoring  
(C) Data deletion (D) Confidentiality

23. What is the maximum imprisonment term for a person who knowingly contravenes the provisions of the Handloom Reservation Act, 1985?

- (A) 3 months (B) 6 months  
(C) 2 years (D) 5 years

24. Assertion (A): Cluster development improves competitiveness of handloom units.

Reason (R): It provides shared infrastructure and marketing support.

- (A) Both true and R explains A (B) Both true but R not explanation  
(C) A true R false (D) Both false

**ANNEXURE-IX TO NOTIFICATION NO. 7/2/2022-MPSC (DR) DATED 20-03-2026**

25. MS Word is primarily used for:

- |                   |                       |
|-------------------|-----------------------|
| (A) Data analysis | (B) Document creation |
| (C) Programming   | (D) Monitoring        |

26. Quantitative data refers to:

- |                          |                               |
|--------------------------|-------------------------------|
| (A) Descriptive opinions | (B) Numerical measurable data |
| (C) Photos               | (D) Audio files               |

27. IP address identifies:

- |              |                    |
|--------------|--------------------|
| (A) Printer  | (B) Network device |
| (C) Compiler | (D) Spreadsheet    |

28. Excise duty is generally related to:

- |                   |                          |
|-------------------|--------------------------|
| (A) Direct income | (B) Manufacture of goods |
| (C) Personal tax  | (D) Internet usage       |

29. Cluster approach reduces:

- |   |
|---|
| (A) Collaboration                         |
| (B) Government role                       |
| (C) Quality                               |
| (D) Cost per unit through shared services |

30. File backup prevents:

- |                  |                |
|------------------|----------------|
| (A) Virus spread | (B) Data loss  |
| (C) Compilation  | (D) Email spam |

31. Skill upgradation schemes in handloom sector aim to:

- |                      |                                 |
|----------------------|---------------------------------|
| (A) Increase imports | (B) Improve weaver productivity |
| (C) Reduce labour    | (D) Replace looms               |

32. Structured data is stored in:

- |              |               |
|--------------|---------------|
| (A) Database | (B) Antivirus |
| (C) Browser  | (D) Printer   |

33. Entrepreneurship development focuses on:

- |                         |                                 |
|-------------------------|---------------------------------|
| (A) Machine maintenance | (B) Skill building & leadership |
| (C) Yarn testing        | (D) Dyeing                      |

**ANNEXURE-IX TO NOTIFICATION NO. 7/2/2022-MPSC (DR) DATED 20-03-2026**

34. Which body provides the "Interest Subvention" for handloom weaver cooperative societies under the NABARD refinancing scheme?
- (A) RBI  
(B) Ministry of Textiles (Govt. of India)  
(C) State Cooperative Banks  
(D) World Bank
35. Data entry validation prevents:
- (A) Speed (B) Entry errors  
(C) Compilation (D) Transmission
36. State textile policies mainly focus on:
- (A) National defense (B) Industrial growth within state  
(C) International trade agreements (D) Currency regulation
37. Spam emails are:
- (A) Genuine (B) Unsolicited messages  
(C) Official mail (D) Database
38. MS Excel function SUM() is used to:
- (A) Multiply (B) Add numbers  
(C) Delete data (D) Print
39. Which famous Indian handloom style is characterized by the "flower work" embroidery of Punjab?
- (A) Kantha (B) Phulkari  
(C) Chikankari (D) Bandhani
40. Monitoring cycle includes:
- (A) Planning–Data collection–Analysis–Action (B) Printing only  
(C) Coding only (D) Testing only
41. Industrial Act governing labour conditions is:
- (A) Income Tax Act (B) Factories Act  
(C) IT Act (D) Trademark Act

**ANNEXURE-IX TO NOTIFICATION NO. 7/2/2022-MPSC (DR) DATED 20-03-2026**

42. RAM is:

- |                       |                      |
|-----------------------|----------------------|
| (A) Permanent storage | (B) Temporary memory |
| (C) Software          | (D) Hardware input   |

43. Break-even analysis determines:

- |                   |                                 |
|-------------------|---------------------------------|
| (A) Market demand | (B) Production method           |
| (C) Labour supply | (D) Minimum sales to avoid loss |

44. Primary objective of monitoring is:

- |                   |                                    |
|-------------------|------------------------------------|
| (A) Increase cost | (B) Track progress against targets |
| (C) Reduce labour | (D) Stop evaluation                |

45. Password security requires:

- |                    |                                    |
|--------------------|------------------------------------|
| (A) Simple name    | (B) Strong alphanumeric characters |
| (C) Birthdate only | (D) Same password everywhere       |

46. Industrial dispute settlement mechanism protects:

- |                     |                              |
|---------------------|------------------------------|
| (A) Employer only   | (B) Both employer & employee |
| (C) Government only | (D) Exporters                |

47. Monitoring helps reduce:

- |                   |                  |
|-------------------|------------------|
| (A) Transparency  | (B) Project risk |
| (C) Documentation | (D) ICT use      |

48. Cloud storage allows:

- |                     |                         |
|---------------------|-------------------------|
| (A) Offline only    | (B) Online data storage |
| (C) Hardware repair | (D) Virus creation      |

49. Data backup frequency should be:

- |             |                     |
|-------------|---------------------|
| (A) Rare    | (B) Optional        |
| (C) Regular | (D) Once in 5 years |

50. Entrepreneurship ecosystem strengthens through:

- |  |
|--|
| (A) Financial isolation                |
| (B) Finance, training & infrastructure |
| (C) Policy elimination                 |
| (D) Manual record only                 |

**ANNEXURE-IX TO NOTIFICATION NO. 7/2/2022-MPSC (DR) DATED 20-03-2026**

51. Patent protection is granted for:

- |                               |                            |
|-------------------------------|----------------------------|
| (A) Artistic weaving patterns | (B) Invention with novelty |
| (C) Traditional designs       | (D) Logos only             |

52. Industrial development policies are framed by:

- |                                 |                         |
|---------------------------------|-------------------------|
| (A) Individual entrepreneur     | (B) Private bodies only |
| (C) Central & State Governments | (D) NGOs                |

53. Two-factor authentication enhances:

- |              |                 |
|--------------|-----------------|
| (A) Speed    | (B) Security    |
| (C) Printing | (D) Compilation |

54. Monitoring report deviation first step:

- |                    |                        |
|--------------------|------------------------|
| (A) Close unit     | (B) Analyze root cause |
| (C) Replace worker | (D) Stop funding       |

55. Database management system helps in:

- |                     |                       |
|---------------------|-----------------------|
| (A) Virus removal   | (B) Data organization |
| (C) Hardware repair | (D) Email drafting    |

56. Impact evaluation assesses:

- (A) Daily production
- (B) Long-term socio-economic change
- (C) Compilation stage
- (D) Data entry speed

57. MSME registration is done through:

- |                               |                   |
|-------------------------------|-------------------|
| (A) Udyam Registration portal | (B) PAN only      |
| (C) District court            | (D) Labour office |

58. Budget allocation planning is part of:

- |                         |                 |
|-------------------------|-----------------|
| (A) Industrial planning | (B) Compilation |
| (C) Compiler design     | (D) ICT         |

59. HTTPS protocol ensures:

- |                     |                          |
|---------------------|--------------------------|
| (A) Faster browsing | (B) Secure communication |
| (C) Free internet   | (D) Compilation          |

**ANNEXURE-IX TO NOTIFICATION NO. 7/2/2022-MPSC (DR) DATED 20-03-2026**

60. GI registration protects:

- (A) Manufacturing machines
- (B) Region-specific traditional products
- (C) Dye formula
- (D) Company logo only

61. Evaluation should be:

- (A) Biased
- (B) Evidence-based
- (C) Random
- (D) Informal only

62. Malware includes:

- (A) Spreadsheet
- (B) Virus
- (C) Printer
- (D) Database

63. Monitoring dashboard shows:

- (A) Code
- (B) Printer
- (C) Virus
- (D) Visual summary of key data

64. Export promotion scheme mainly provides:

- (A) Subsidy & incentives
- (B) Yarn supply
- (C) Wage control
- (D) Tax penalties

65. Lexical analysis phase in compilation:

- (A) Generates object code
- (B) Breaks program into tokens
- (C) Optimizes code
- (D) Executes program

66. Variable cost changes with:

- (A) Production volume
- (B) Fixed infrastructure
- (C) Registration
- (D) Policies

67. Qualitative data includes:

- (A) Numbers
- (B) Interviews and feedback
- (C) Statistical charts
- (D) Calculations

68. LAN stands for:

- (A) Local Area Network
- (B) Logical Area Node
- (C) Long Access Network
- (D) Local Access Node

**ANNEXURE-IX TO NOTIFICATION NO. 7/2/2022-MPSC (DR) DATED 20-03-2026**

69. Two-factor authentication includes:

- |                   |                    |
|-------------------|--------------------|
| (A) Password only | (B) Password + OTP |
| (C) Username only | (D) IP address     |

70. Entrepreneur training improves:

- |                   |                                   |
|-------------------|-----------------------------------|
| (A) Yarn strength | (B) Management & leadership skill |
| (C) Loom twist    | (D) Dye absorption                |

71. Phishing emails typically:

- |                          |                                      |
|--------------------------|--------------------------------------|
| (A) Inform scheme        | (B) Ask for confidential information |
| (C) Improve productivity | (D) Monitor data                     |

72. Which term refers to the process of transferring a pattern from a paper design to the loom using a series of punched cards?

- |             |              |
|-------------|--------------|
| (A) Dobby   | (B) Jacquard |
| (C) Treadle | (D) Shuttle  |

73. Output indicator measures:

- |                      |                       |
|----------------------|-----------------------|
| (A) Final impact     | (B) Immediate results |
| (C) Long-term change | (D) Budget only       |

74. CPU consists of:

- |                        |              |
|------------------------|--------------|
| (A) ALU & Control Unit | (B) RAM      |
| (C) Disk               | (D) Keyboard |

75. Cloud computing allows:

- |   |
|---|
| (A) Hardware damage                     |
| (B) Remote access to computing services |
| (C) Offline database                    |
| (D) Compiler stage                      |

76. Evaluation reports are submitted to:

- |              |                       |
|--------------|-----------------------|
| (A) Compiler | (B) Funding authority |
| (C) Printer  | (D) Vendor            |

**ANNEXURE-IX TO NOTIFICATION NO. 7/2/2022-MPSC (DR) DATED 20-03-2026**

77. Syntax analysis checks:

- |                     |              |
|---------------------|--------------|
| (A) Grammar of code | (B) Hardware |
| (C) Internet        | (D) Keyboard |

78. Wi-Fi is example of:

- |                   |                         |
|-------------------|-------------------------|
| (A) Wired network | (B) Wireless technology |
| (C) Storage       | (D) Compiler            |

79. Factories Act mainly regulates:

- |             |                                 |
|-------------|---------------------------------|
| (A) Export  | (B) Working conditions & safety |
| (C) Pricing | (D) Import duty                 |

80. Cooperative failure corrective step:

- (A) Increase production
- (B) Strengthen financial documentation
- (C) Change product
- (D) Increase GST

81. Logical Framework Approach includes:

- |                                 |                       |
|---------------------------------|-----------------------|
| (A) Input–Output–Outcome–Impact | (B) Twist–Draft–Count |
| (C) Warp–Weft                   | (D) Compiler phase    |

82. Bandwidth refers to:

- |                  |                                |
|------------------|--------------------------------|
| (A) Storage size | (B) Data transmission capacity |
| (C) CPU speed    | (D) RAM                        |

83. Industrial policy objective:

- |                     |                       |
|---------------------|-----------------------|
| (A) Agriculture     | (B) Industrial growth |
| (C) Compiler design | (D) Textile weaving   |

84. Case: Digital marketing absence — best action:

- |                   |                         |
|-------------------|-------------------------|
| (A) Increase yarn | (B) Train in e-commerce |
| (C) Reduce labour | (D) Increase cost       |

85. MS Excel pivot tool helps in:

- |                   |                    |
|-------------------|--------------------|
| (A) Coding        | (B) Data analysis  |
| (C) Virus control | (D) Hardware check |

**ANNEXURE-IX TO NOTIFICATION NO. 7/2/2022-MPSC (DR) DATED 20-03-2026**

86. "A manager uses process monitoring primarily to identify bottlenecks and ensure work is staying on schedule. This is an example of:"

- (A) End result only (B) Activity tracking  
(C) Profit only (D) Survey only

87. The "Education Salary" or scholarship for children of handloom weavers under NHDP is provided through which portal?

- (A) PM-Event  
(B) National Scholarship Portal (NSP)  
(C) Handloom Digital  
(D) Diksha

88. Industrial cluster CFC provides:

- (A) Private house (B) Shared infrastructure  
(C) Bank (D) GST office

89. Data entry via OCR means:

- (A) Optical Character Recognition (B) Online coding  
(C) Output reading (D) Order record

90. Digital monitoring improves:

- (A) Risk (B) Transparency  
(C) Delay (D) Labour

91. Monitoring frequency based on:

- (A) Random (B) Project size  
(C) Internet (D) Printer

92. Impact indicator refers to:

- (A) Immediate output (B) Long-term change  
(C) Activity (D) Data entry

93. Entrepreneurship focuses on:

- (A) Skill building (B) Twist  
(C) Dyeing (D) Warp

**ANNEXURE-IX TO NOTIFICATION NO. 7/2/2022-MPSC (DR) DATED 20-03-2026**

94. Under the Comprehensive Handloom Cluster Development Scheme (CHCDS), "Mega Clusters" are developed with a minimum project cost of:
- (A) ₹10 Crore (B) ₹25 Crore  
(C) ₹50 Crore (D) ₹100 Crore
95. Secure password must be:
- (A) Simple (B) Alphanumeric  
(C) Birthdate (D) Same everywhere
96. In a Primary Weavers Cooperative Society (PWCS), what is the "Reserve Fund" typically used for?
- (A) To pay dividends to members  
(B) To pay the Secretary's salary  
(C) To meet unforeseen losses and strengthen the society's capital  
(D) To buy raw material for next month
97. Industrial licensing ensures:
- (A) Regulation (B) Twist  
(C) Dyeing (D) Yarn
98. Database stores:
- (A) Virus (B) Structured data  
(C) Hardware (D) Printer
99. To ensure high-quality and objective findings, a researcher's clinical or scientific approach should ideally be:
- (A) Biased (B) Evidence-based  
(C) Random (D) Informal
100. Which state is renowned for the production of authentic Kanchipuram silk sarees?
- (A) Tamil Nadu (B) Karnataka  
(C) Kerala (D) Andhra Pradesh

SPECIMEN QUESTION PAPER [Paper-I - General Industries for Inspector (Handloom/ Non-Technical)]

SPECIMEN QUESTION PAPER [Paper-I - General Industries for Inspector (Handloom/ Non-Technical)]
